Summer Village of Horseshoe Bay – the County entered into an agreement with the Summer Village of Horseshoe Bay to provide mowing services to the summer village as needed.

Organizational Review – the firm of Nicholls Applied Management was hired to conduct an organizational review of the County to assist with succession planning and to identify possible vulnerabilities due to pending retirements. Consultant, Jeff Bellinger, indicated that there are five positive factors that will assist the County as they transition the organization over the next few years. These factors include: strong organizational management; a positive organizational culture; good governance; strong strategic planning processes and reporting; and strong financials. The consultant is recommending to redesign the organizational structures, processes and culture over a period of time, as key retirements occur and then search for individuals to lead the redesigned organization. An Employee Engagement Survey was conducted as part of

this review. This survey included all fulltime permanent staff as well as seasonal staff that were still employed in October 2015. The results will serve as a benchmark for the County and provide Administration with indications of where improvements can be made to ensure the County continues to be an employer of choice. The consultant's final report can be viewed on the County's website.
