Our Mission - To create desirable rural experiences

RURAL ADDRESS APPLICATION FORM

A Rural Address is a standard form of addressing that will allow emergency services such as police, fire, and ambulance to find your residence in the case of an emergency. Also known as a 911 address. This address is assigned by County of St. Paul and shared with Telus 911 for the purpose of emergency dispatch.

Your Rural Address is NOT your mailing address. Canada Post assigns your mailing address and postal code.

SECTION A – CONTACT INFORMATION

Applicant _____
Contact Name _____
Phone Number _____
Alternate _____
Email _____

SECTION B – SITE INFORMATION

Legal Land Description
¼ _____ Section _____ Twp _____ Rng _____ W of 4th M.
Lot _____ Block _____ Registered Plan _____
Parcel Size _____

SECTION C – APPROACH INFORMATION, AND SITE INFORMATION

Rural Addresses are assigned based on the approach or access point into your property or subdivision off of a municipal road, such as a township road or range road. In order to assign a Rural Address, a precise distance to the approach from a known point, such as an intersection or quarter line, must be provided.

Is there an existing approach into the parcel or subdivision? Yes _____ No _____ (if "No," contact County)

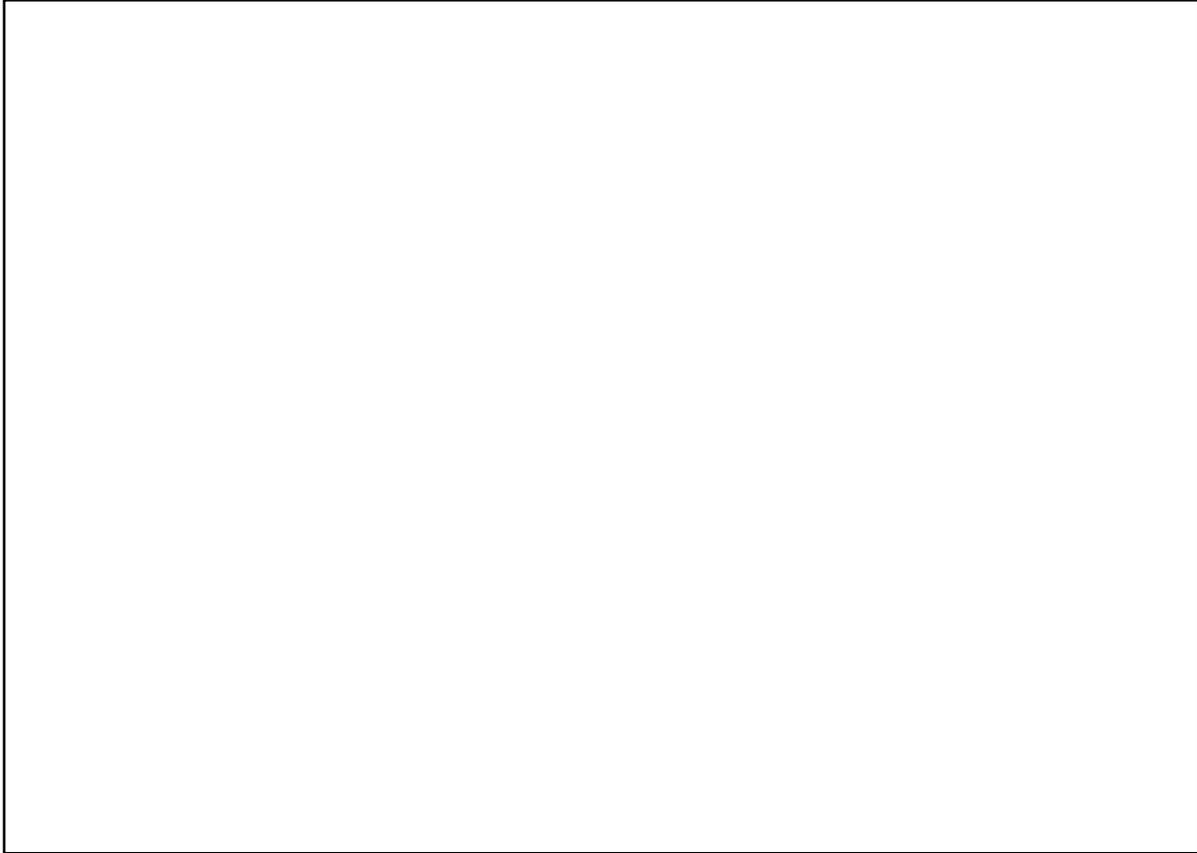

Is there an existing residence on the parcel? Yes _____ No _____

How many residences will there be on the parcel? _____

Is the access approach off of a: Range Road, Township Road, Highway, Subdivision Road, Other (circle one)

Describe in writing, the distance (in meters or feet) from a known point, such as an intersection or quarter section line, to the approach, indicating direction and side of the road the approach is on. This description should correspond with the accompanied site plan.

RURAL ADDRESS – SITE MAP

1. The most important piece of information is the “access” or “approach” location off of the municipal road. Please indicate with an accurate measurement (in meters or feet) the distance from a known location, such as an intersection or quarter line, to the approach. Indicate directions and side of road.
2. Clearly label all roads.
3. Indicate the approximate location of the residence on the property. If applicable, show the location of multiple dwellings.
4. Measurements must be recorded in either meters or feet.
