

COUNTY OF ST. PAUL NO. 19

Our Mission - To create desirable rural experiences

ADM-31 Light Efficient Community Policy

Department: Administration

POLICY OBJECTIVE:

The County of St. Paul desires to use lighting more responsibly and more cost effectively.

POLICY STATEMENTS:

1.0 LED Lighting

- 1.1 In recognition of the environmental and financial advantages that can be achieved by increasing the presence of light-emitting diode (LED) lighting technology, the County will shift to using LED lighting for all future street lighting installations and all replacement street lights.
- 1.2 Current lighting luminaries in the County will be replaced with LED lighting technology on a case-by-case basis as current lighting luminaries burn out or require replacement.

Council Approval: September 10, 2013
